

RESC Alliance

CONNECTICUT ALLIANCE OF REGIONAL EDUCATION SERVICE CENTERS

TEAM

INITIAL SUPPORT TRAINING

This training for prospective mentors and cooperating teachers is available for individuals selected by the district (or volunteered) to serve in one of these roles.

Following the two in-person sessions, there will be additional time for follow up offered either online or in person for more in-depth work on the modules or the process chosen by your district.

The training prepares participants to lead beginning teachers through the Teacher Education and Mentoring (TEAM) Program module process and a successful completion of the five mentoring modules. In addition, participants are prepared to support a student teacher while developing effective coaching strategies to assist both beginning and student teachers.

At the end of the training, participants qualify to work with either a new teacher or a student teacher.

Cost: \$175

Participants must attend all sessions.

Participants must bring their own food/beverage.

For more information about workshop content and price, and to register, use the links on the side.
